About the BDAV

The Building Designers Association of Victoria is a not-for-profit organisation representing almost 1,800 building design professionals, including building designers, draftspersons, interior designers, and services designers, as well as thermal performance assessors and home sustainability assessors.

Established in 1983, the BDAV is managed by a committee of volunteers elected from amongst the membership, whose objective is to advance the profession of building design, by offering cost-effective, quality, membership services and benefits to meet the needs of this important sector of the building industry.

The BDAV is highly regarded by Government and industry bodies. The Association is regularly invited to represent the building design profession on key, influential committees, boards and forums. A BDAV Member represents all registered draftspersons on the Building Practitioners Board.

The BDAV promotes its members for their professional services, their experience and expertise; their practical, individual designs; their knowledge of regulations; and their realistic fees.

The BDAV regularly provides referrals of building designers who are members of the Association to potential clients seeking a designer to design their new home or renovation or other project, as well as referrals to persons seeking either a thermal performance assessor or home sustainability assessor.

The BDAV is an industry leader in Continuing Professional Development, and has won industry awards for its CPD delivery. The BDAV's CPD Program provides opportunities for BDAV members to upskill their knowledge on issues of relevance to design professionals and energy raters.
